EVERYTOWN FOR GUN SAFETY AND MOMS DEMAND ACTION FOR GUN SENSE IN AMERICA THANK CONGRESSMAN MIKE THOMPSON FOR LEADERSHIP ON GUN VIOLENCE PREVENTION

Congressman Thompson's Promoting Healthy Minds for Safer Communities Act Includes Important Reforms to Protect Woman and Children From Gun Violence

In the aftermath of the tragic Santa Barbara shooting in his home state of California, Everytown for Gun Safety and Moms Demand Action for Gun Sense in America applaud Congressman Mike Thompson on his leadership as the Chair of the Gun Violence Prevention Task Force. Today, the Congressman announced the Promoting Healthy Minds for Safer Communities Act, a bill that advances reforms to keep our families and communities safe.

“Americans across the country are calling for ‘Not One More’ life to be cut short by senseless gun violence – and today Congressman Thompson has, once again, answered that call by proposing reforms that will protect women from gun violence and advance the conversation on how to keep guns out of the hands of people suffering from mental illness that endangers themselves or others,” said **John Feinblatt, President of Everytown for Gun Safety**. “As chair of the Gun Violence Prevention Task Force, Congressman Thompson has repeatedly called on his colleagues to follow his lead to pass common-sense gun legislation.”

The Promoting Healthy Minds for Safer Communities Act lays out a number of important measures that will protect women from domestic violence, equip law enforcement with the proper resources to stop dangerous individuals and address core mental health concerns.

Among other important provisions, the bill:

- Keeps guns out of dangerous hands by ensuring that abusive dating partners and convicted stalkers cannot legally purchase and possess guns;

- Addresses problems with records in the National Instant Criminal Background Check System (NICS) that may allow spousal abusers to pass background checks and buy guns;
- Enables law enforcement to catch and prosecute criminals who try to buy guns illegally by requiring the Department of Justice to notify local and state authorities when a dangerous person fails a background check at the point of sale;
- Reauthorizes funding to help states submit records to the background check system and creates state-specific submission plans tailored to the needs of each state; and
- Clarifies that federal law does not block doctors from talking to their patients about gun safety or from reporting threats of violence to authorities and that federal privacy law does not block states from reporting mental health records to the background check system.

“Just like Senator Klobuchar’s Protecting Domestic Violence and Stalking Victims Act in the Senate, Congressman Thompson’s bill would save women’s lives by ensuring that abusive dating partners and convicted stalkers are prohibited from buying or owning guns,” said **Shannon Watts, Founder of Moms Demand Action for Gun Sense in America**. “As a result of our country’s weak gun laws, American women are 11 times more likely to be murdered with a gun than women in any other developed nation – and 57 percent of mass shootings involve domestic violence or violence against women, as we saw in this most recent tragedy. We thank Congressman Thompson for his leadership in protecting American women from gun violence.”
